

ABAS ERP

EXTENDED PROFILE

OVERVIEW

abas ERP is a software system for mid-sized manufacturers, retailers, distributors, and service providers.

Deployable via the cloud or on-premise, the system can be accessed via any desktop browser and its native mobile iOS and Android apps.

User training consists of project-level training and test scenarios. These allow end users to learn about the ERP software in a real-world environment. This real-world training is also complemented by resources present in the abas eLearning system.

KEY FEATURES

- **Comprehensive manufacturing management:** abas ERP provides advanced tools for production planning and control, helping manufacturers optimize their operations with real-time data. It features job shop scheduling, capacity planning, and production monitoring to help businesses quickly adapt to market changes.
- **Integrated business intelligence:** Powerful analytics and reporting tools allow users to gain a deeper understanding of their business performance. The system's BI capabilities allow for the creation of customizable dashboards and detailed reports that provide actionable insights.
- **Enhanced supply chain visibility:** abas ERP supports end-to-end supply chain management, offering features for procurement, inventory control, and logistics. This ensures that companies can maintain optimal stock levels, reduce lead times, and improve supplier collaboration.
- **Customer Relationship Management (CRM):** The integrated CRM module helps businesses manage customer interactions, track sales opportunities, and improve customer satisfaction. This module provides a 360-degree view of customer data, facilitating personalized communication and stronger relationships.
- **Financial management:** abas includes a comprehensive suite of financial tools that streamline accounting processes, from general ledger and accounts payable/receivable to budgeting and financial forecasting. This integration helps ensure financial accuracy and compliance with regulatory standards.
- **Global reach, local expertise:** With a presence in over 25 countries and a network of local partners, Abas ERP combines global best practices with local industry knowledge, providing a solution that is both comprehensive and relevant to regional market dynamics.

EVOLUTION UNDER FORTERRO

In 2019, Forterro, a European ERP software group backed by Battery Ventures, acquired Abas Software AG to expand its range of solutions for the industrial mid-market, with subsequent acquisitions of abas System GmbH in 2022 and abas BS in 2023 to expand market reach in Germany and Spain.
