

APTEAN INDUSTRIAL MANUFACTURING ERP (INTUITIVE ERP)

EXTENDED PROFILE

OVERVIEW

Aptean Industrial Manufacturing ERP (Intuitive ERP) is used by companies that operate in regulated industries, such as electronics, medical devices, and aviation.

It is very suitable for those companies with strong regulatory and governmental requirements such as component serial number traceability, product configuration, quality management, and engineering change management.

The ERP provides a modular range of options out of the box, where users can subscribe to specific needs or the whole range of functionality.

INTEGRATION OPTIONS

[Other Aptean software](#) can also be integrated, providing enhanced business intelligence, ecommerce solutions, HR, and financial reporting.

APTEAN CADLINK

Aptean CADLink creates a real-time, two-way connection between your CAD software (like SolidWorks, Autodesk Inventor, and Creo) and Aptean Industrial Manufacturing ERP. It eliminates manual data entry by syncing engineering info and BOM data seamlessly, ensuring accuracy and saving time. With CADLink, your CAD drawings match your ERP records, streamlining workflows and reducing errors.

Aptean's Industrial Manufacturing ERP is designed to work for businesses of all sizes, anywhere in the world. It supports multiple currencies and languages and easily integrates with leading operating systems and databases like Microsoft's .NET Framework and Oracle.
