

APTEAN DISTRIBUTION ERP (FORMERLY APPRISE ERP)

EXTENDED PROFILE

OVERVIEW

An ERP designed for the consumer goods industries, Aptean Distribution ERP offers both core ERP functionalities, such as BI, warehouse and inventory management and accounts management, alongside more specific modules such as retail compliance management and import management.

Aptean Distribution ERP is fully integrated with industry-specific requirements, such as import tools, EDI, retail labeling, and RFID. The software emphasizes flexibility in order to minimize the need for costly and time-consuming customization work, especially in its warehouse capabilities, which includes numerous efficiency tools such as directed putaway, wave picking, and cross docking.

Aptean Distribution ERP is available as both a cloud-based ERP and an on-premise solution - clients can pick the delivery method which best suits their needs. A native tablet app is also available, which allows users to work offline and sync with the cloud once back online.
