

ACCESS COINS ERP EXTENDED PROFILE

OVERVIEW

Access Coins is a construction cloud ERP designed to bring key project, financial, and operational data into a single, unified platform.

The system supports the full lifecycle of construction activities, from planning and execution to accounting and reporting. Designed for both small contractors and large civil engineering firms, it helps teams stay aligned and gives managers clear, real-time insights into performance and profitability.

COINS ACQUISITION

In December 2022, The Access Group completed its acquisition of COINS (formerly Construction Industry Solutions) to accelerate its global ERP growth in the construction sector.

COINS brought over 40 years of industry-focused software experience and more than 100,000 users worldwide into the Access portfolio, creating deeper end-to-end capabilities across project controls, finance, and field operations.

KEY FEATURES OF ACCESS COINS

- **Lifecycle management:** Integrated modules cover everything from project planning and scheduling to financials, supply chain, HR, payroll, and field service management.
- **Integrated Project Controls:** Track budgets, commitments, and variations in real time.
- **Financial management:** Handle general ledger, accounts payable/receivable, and cash flow forecasting.
- **Procurement & supply chain:** Automate purchase orders, supplier evaluations, and inventory tracking to reduce on-site delays.
- **Payroll & HR:** Process payroll, manage certifications, and monitor workforce allocation without switching between tools.
- **Mobile & cloud access:** Field staff update project progress or material usage on a tablet or phone, tying directly back to your central Coins ERP database.
- **Reporting & dashboards:** Choose from prebuilt reports or configure your own dashboards to focus on the metrics that matter for each role.
- **Real-time data:** Users gain a single source of truth to make data-driven decisions, enabling accurate forecasting of project costs and risks
- **Regulatory compliance:** Built-in support for local tax rules and international accounting standards helps teams stay audit-ready

SOFTWARE SCREENSHOTS

The screenshot displays the COINS software interface, which is a comprehensive system for managing construction projects and financials. The interface is divided into several key sections:

- Header:** Includes a "Menu Search" bar, navigation icons, and user information for Alex Hall (Pre-Sales Consultant).
- Left Sidebar:** A "Menu Search" bar and a list of navigation options including Home, Bill of Materials, Bonds & Guarantees, Business Planning & Forecasting, Cash Book, Cash Profiles, Central Repository, and various project management tools.
- Main Dashboard:** A collection of modules organized into sections:
 - Purchase & Subcontract:** Includes modules for Companies, Subcontractor Maintenance, Suppliers, Insurance / Schemes, CIS Verification, Input Certificates, Certificates, Select/Deselect Certificates (Batch), Select/Deselect Certificates (Manual), Payment Batches, and Print Cheques.
 - Enter Invoices:** A module for managing invoices, showing a summary of My Unposted (1), All Unposted (5), and Posted Today (0) invoices.
 - Overdue Invoices:** A summary card showing an overdue amount of 21,478,389.
 - Overdue Invoices (Batch):** A summary card showing an overdue amount of 9.61M.
 - Other Modules:** Includes Suppliers, Invoices, Companies, Invoice batches, Projects, Users, Prob Invs, Aged Creditors, Applications/Certificates, Cash Entry, Invoices, Projects, CM, Small Works, and Print Invoices.
